

ETSC0104 Mini Diagonal Cutter

Major Tech's Mini Diagonal Cutter is a versatile tool designed for clipping leads and managing extra solder tails. Perfect for cutting wires, this tool is essential for electronic and robotic equipment work. The precision machined jaws, made from high-grade carbon steel, ensure accuracy and durability in every cut. With a compact length of 120mm, a 20mm jaw, and non-slip, softgrip handles, these diagonal cutters provide a comfortable and secure grip for precise maneuvers. The spring-loaded return enhances efficiency, making them a reliable choice for intricate tasks in confined spaces. Upgrade your toolkit with these Mini Diagonal Cutters for precision and control in your electronic projects.

Features

- Mini Diagonal Cutter for clipping leads and extra solder tails
- Ideal for cutting wires and will come in handy with most electronic and robotic equipment
- Precision machined jaws
- High grade carbon steel
- Non-slip, softgrip handles
- Spring loaded return
