

EARN UP TO **AN EXTRA \$100** FOR EACH INSPECTION

MORE WORK, MORE PROFIT

**Invitation to become a
SafetyEx Referral Partner**

Your opportunity to enjoy more work and higher profits. And you can do this for free.

In April 2024 SafetyEx launches offering a range of safety related products with an emphasis on a brand new range of smoke alarms – GT High Performance Smoke Alarms. We will be shaking up a tired old industry with superior products and service and a massive marketing campaign.

You are right at the coal face to recommend replacing or upgrading smoke alarms in the properties you inspect and profit from your recommendation.

As you are aware – every property sold in Queensland has to have interconnected smoke alarms (one goes off they all go off) inside every bedroom. And every other property needs to meet the new smoke alarm laws before the end of 2026. When you do your inspection (which no doubt includes the smoke alarms) you simply make a recommendation to your customer and we pay you for each successful referral – up to \$100 per property. Just for a successful recommendation.

We would like to invite you to become a SafetyEx Referral Partner which will deliver you these benefits:

- ▶ You will enjoy additional, profitable income
- ▶ You will appear on our website as a Preferred Building Inspector
- ▶ We will actively promote you to our customers in your area
- ▶ You can use our Preferred Building Inspector logo in your marketing
- ▶ THERE IS NO COST TO BECOME OUR REFERRAL PARTNER

To find out more about how much additional money you could earn – call us, email us or visit <https://safetyex.com.au/building-inspectors>

Smoke alarms that can be silenced by any existing remote control in the home.
