INVITATION TO BECOME A SAFETYEX REFERRAL PARTNER BUILDING INSPECTORS – EARN UP TO \$100 ADDITIONAL PER INSPECTION

SafetyEx is transforming the safety product market with our GT High Performance Smoke Alarms & we see a unique opportunity for you.

As you are aware – every property sold in Queensland has to have interconnected smoke alarms (one goes off they all go off) inside every bedroom. And every other property needs to meet the new smoke alarm laws before the end of 2026.

Unlock new opportunities for growth and profitability with SafetyEx, the leading innovator in safety products. We're inviting elite building inspectors to join our network as Preferred Building Inspectors.

When you do your inspection (which no doubt includes the smoke alarms) you simply make a recommendation to your customer and we pay you for each successful referral – up to \$100 per property. Just for a successful recommendation.

GT HIGH PERFORMANCE SMOKE ALARMS CAN REDUCE FALSE ALARMS BY UP TO 99%

SPLIT SPECTRUM TECHNOLOGY

GT High Performance smoke alarms feature our exclusive split spectrum technology, combining a traditional photoelectric sensor with a blue LED sensor.

This dual-sensor technology detects various particle sizes, distinguishing between smoke, dust, and vapour, significantly reducing false alarms caused by steam, dust, and humidity.
